

Your help is needed. The Sto-Rox Field Committee, with the backing of the community and the school district, is running a fundraising campaign to replace the old football field at the high school with a new synthetic turf activity field. We hope you agree that now is the time to give back!

A beautiful synthetic turf field will be seen and used daily by students, teachers, the community, and visitors. It will serve as a symbol of the commitment put forth by the members of community, both past and present.

Many schools in the area have installed synthetic turf fields in recent years. Those schools have benefitted from increased usage for multiple events, lower maintenance costs, and improved safety.

Please help the Sto-Rox Field Committee raise the necessary funds to provide our students and our community with a quality facility that they very much need and deserve.
